APPETITE CONTROL

kiwi strawberry

30 stiks per box

GREEN TEA

Green Tea increases your body's fat burning capabilities by boosting your metabolism, increasing your energy through natural caffeine, and acting as an extra fat burner during exercise.

GUARANA

This is a natural appetite suppressant, one that won't make you nauseous, or regretful. It increases your metabolism, energy, and has been FDA approved as a weight loss aid.

GLUCURONOLACTONE

A mouth full to be sure, but this is truly the buddy in your buddy system. When paired with caffeine, this guy goes to work on regulating that energy, making it stable, and longer lasting.

THEOBROMINE

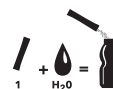

A tea leaves extract, this not only improves mood, but actually relaxes you without making you drowsy. It also helps alleviate stress and anxiety, both of which are linked to weight gain.

HYDRATION!

Last but not least, Hydration!
Most americans don't get enough water, and now you have weight loss support in a bottle that's tasty and hydrating too! It's hard losing weight alone, do yourself a favor and let us help.
