**EPHEDRA  
VIRIDIS**

Similar to green tea, this leafy green stimulates fat burning by activating your metabolism and also helps to regulate blood sugar. Although in the same plant family it does NOT contain ephedrine.

**GUARANA**

This natural appetite suppressant is one that won't make you nauseous. It increases your metabolism, energy, and has been FDA approved as a weight loss aid.

**GLUCURONOLACTONE**

This is a perfect pairing for weight loss, when combined with an energy supplement, such as guarana, this goes to work on regulating that energy, making it stable and longer lasting. So your body can burn more calories, more efficiently.

**YOHIMBINE  
HCL**

A powerful vasodilator, yohimbine increases your blood flow. But it's not only good for your heart, it also supports fat synthesis, cutting through fatty acid mobilization.

**ALOE VERA  
EXTRACT**

You've probably seen the drinks in your grocery store. But why drink something slightly green and gelatinous? Well not only is aloe a digestive aid, it also is a powerful antioxidant, that cleans your body out of free radicals and oxidative stress.

**CHAPARRO  
PRIETO**

This herb helps your body burn fat stores for energy instead of muscle. It's a triple threat as it suppresses appetite & boosts your mood all in one.

**BITTER ORANGE  
EXTRACT**

This has been used in China and Amazon for centuries as a dietary aid. Bitter orange is a natural fat burning stimulant.

**WHITE WILLOW  
EXTRACT**

Used as an anti-inflammatory and pain reliever for thousands of years, white willow has antioxidant, anti-inflammatory and anti-cancer properties. It also helps other fat burning compounds burn fat.

**THEOBROMINE**

A tea leaves extract, this not only improves mood, but relaxes you without making you drowsy. It also helps alleviate stress and anxiety, which are both directly linked to weight gain.

**GABA**

A neurotransmitter that regulates the ying-yang of your body, it helps regulate mood, energy, and the burning of fat. Without proper levels your body starts to burn off all that muscle you gained at the gym.

**BLACK PEPPER  
EXTRACT**

Black Pepper Extract works hard with other supplements to make sure they're all absorbing properly. It's powerful antioxidants also may help lower blood sugar after eating.

**PHENYLETHYLAMINE  
HCL**

A nootropic that works with brain chemicals to help you feel relaxed and alleviate your mood, helping you fight the fat caused by stress.

**MANGOSTEEN**

This superfood packs a powerful punch of antioxidants that help fight off infections and viruses, has essential electrolytes, minerals, and vitamins. It contains high amounts of fiber, is low in calories, and has almost no fat. This helps you metabolize your energy, for fat burning efficiency.
